

Lab: Simple Commands

Test your solutions in the **judge system**: <https://judge.softuni.org/Contests/4621/Simple-Commands-Lab>

1. Hello C#

Write a program that, **prints "Hello C#" on the console.**

Example

Input	Output
(no input)	Hello C#

2. Print 5 * 5

Write a program that:

- Calculate **the value of $5 * 5$**
- Prints the **result at the console**

Example

Input	Output
(no input)	25

3. Number Operations

Write a program that:

- Print your **name on the first line**
- Calculate and print the **expression $5 + 3$ at the second line**

Example

Input	Output
(no input)	Desislava 8

4. Calculations

Write a program, which **calculates** and **prints** the value of the following **expressions**:

- $5 + 3 * 2$
- $4 * (2 + 3)$
- $(2 + 5) * (8 - 2) / 7$

Example

Input	Output
(no input)	11 20 6

5. Square of 7 * 7 stars

Write a program, which **prints a square of 7 * 7 stars** like this:

Example

Input	Output
(no input)	<pre>* *</pre>
